

PROFESSIONAL SUMMARY

Final year Information Technology student with 6 months of Business Analyst experience at TMA Solutions and hands-on experience in Manual Testing and Web Test Automation. Experienced in requirement analysis, test case design, test execution, bug reporting, retesting, and UAT. Developed and executed a 30-test-case test suite for an e-commerce web application and automated selected workflows using Selenium IDE. Strong in analytical thinking, attention to detail, and problem solving, with practical exposure to Jira, Postman, SQL, SDLC/STLC, and Agile/Scrum. Seeking a Fresher QA/Tester position to contribute to software quality while developing further in Automation Testing.

PROFESSIONAL EXPERIENCE

TMA SOLUTIONS BA & QA INTERN	03/2026 – 08/2026
Domain: Healthcare	
Business Analysis	
- Analysed and clarified requirements, User Stories, and Acceptance Criteria to establish expected business and system behaviour. - Collaborated with Product teams, Business Analysts, and Developers to identify requirement gaps and align functional expectations.	
Quality Assurance	
- Supported manual functional testing and UAT, validating implemented features against documented requirements. - Logged and documented defects, collaborated with Developers to troubleshoot, retest, and verify fixes.	

SOFTWARE TESTING PROJECT

TNC Store Web Application – Software Testing & Quality Assurance	01/2026 – 04/2026
- Designed a 30-test-case test suite covering authentication, search/filtering, shopping cart, form validation, pricing/discount logic, session persistence, and data integrity. - Executed positive, negative, functional, validation, and edge-case test cases, documenting test steps, Expected Results, Actual Results, and Pass/Fail/Skip outcomes. - Validated business logic, calculations, data persistence, and cross-page data consistency across key e-commerce workflows. - Developed Selenium IDE automated test scenarios using CSS/XPath locators, assertions, waits, variables, conditional logic, loops, and JavaScript-based validation for selected workflows, including business-rule and calculation checks.	

TECHNICAL SKILLS

Testing: Manual Testing, Test Case Design, Test Execution, UAT, Bug Reporting, Retesting
Automation: Selenium IDE, CSS/XPath Locators, Assertions, Waits, Variables, Conditional/Loop Logic
Web & Data: HTML/CSS/JavaScript, SQL – Basic Queries
Tools & Methodologies: Jira, SDLC, STLC, Agile/Scrum, Bug Life Cycle
Professional Skills: Logical Thinking, Analytical Thinking, Attention to Detail, Problem Solving, Teamwork, Communication Skills, Responsibility, Proactive Learning
Languages: Vietnamese – Native English – Working Proficiency

EDUCATION

HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY	2022 – 2026
BACHELOR OF ENGINEERING IN INFORMATION TECHNOLOGY	
- GPA 3.41/4.0. - Distinction Student Award (Academic Years 2022–2023 & 2023–2024).
